MESSAGE FROM THE PRINCIPAL'S DESK

Painting various hues on the glorious canvas of the institution for 50 golden years has given DAV College Bathinda an impetus to tread ahead with determination, to soar unprecedented heights and to provide a glittering canopy of opportunities to its students. The love and blessings of the benefactors, cooperation and assiduousness of the stakeholders and perseverance and integrity of the students has enabled the college to embrace challenges, leap the barbed wires and reach the zenith. In my utmost modesty and humility, I take this opportunity to thank each stakeholder associated with the college for his gracious support.

On this momentous occasion I take great delight and feel honoured in enumerating upon the milestones reached and acclaim won in the previous session. The college has grown by leaps and bounds with the encouragement of the stalwarts whose presence on various occasions and in each ceremonial function has always added solemnity and glory to the occasion. Ever working on expanding the knowledge repositories of the staff and the students, national and ICSSR sponsored seminars were organized and leading academicians and experts in various fields were invited to deliver lectures. Imbued with right knowledge and equipped with better soft skills, the students have been recruited by many credible organizations. Believing in the adage, "Never let your fear of failure triumph over the joy of participation", various cells, units and committees in the college work towards eliciting maximum participation of students in various activities. Consequently, many coveted titles and trophies have been fetched by our promising students.

Academics has always been the core component, wherein students have constantly raised their performance and emerged as merit holders. Keeping in view the learning abilities of students, an e-portal has been initiated by the college, which makes it convenient for the students to learn at their own pace. The foundation stone of the Golden Jubilee Block too has been laid to accommodate the increasing strength of the students. The laurels fetched by the extra-mural department of the college, be it in sports, co-curricular, literary or rendering social service have also always been pervading from cover to cover and bear a testimony to the rigorous efforts put in by the departments. In an endeavour to channelize the energies of the students in a right direction and help them abstain from vices, the Principal of the college has been appointed as the Nodal Officer of the district Bathinda of Buddy Programme.

Following the dictum "Example is better than precept", the faculty of the institution keep themselves abreast of the latest in diverse fields by pursuing research of the highest standards, attending workshops, seminars, conferences and culling out academically brilliant papers in journals of national and international repute.

The editorial team of the Newsletter deserves all praise for maintaining a veritable account of the activities of the college and formulating it in the form of a well chalked out document.

Upholding the tenets of perseverance and a zealous spirit, I on behalf of the DAV fraternity ascertain my belief that together we will script brilliant stories of success in the years to come.

But we have promises to keep
And miles to go before we sleep
And miles to go before we sleep."- Robert Frost

TEN PRINCIPLES OF ARYA SAMAJ

- God is the efficient cause of all true knowledge and all that is known through knowledge.
- God is existent, intelligent and blissful. He is formless, omniscient just, merciful, unborn, endless, unchangeable, beginning-less, unequalled, the support of all, the master of all, omnipresent, immanent, un-aging, immortal, fearless, eternal and holy, and the maker of all. He alone is worthy of being worshipped.
- The Vedas are the scriptures of all true knowledge. It is the paramount duty of all Aryas to read them, teach them, recite them and to hear them being read.
- One should always be ready to accept truth and to renounce untruth.
- All acts should be performed in accordance with Dharma, that is, after deliberating what is right and wrong.
- The prime object of the Arya Samaj is to do good to the world, that is, to promote physical, spiritual and social good of everyone.
- Our conduct towards all should be guided by love, righteousness and justice.
- We should dispel Avidya (ignorance) and promote Vidya (knowledge).
- No one should be content with promoting his/her good only, on the contrary, one should look for his/her good in promoting the good of all.
- One should regard oneself under restriction to follow the rules of society calculated to promote the well being of all, while in following the rules of individual welfare, all should be free.
